

Information about the Service

Service Description

TPG's NBN FTTN L Business Bundle service is delivered via the National Broadband Network (NBN) to the network boundary point of your premises.

TPG NBN FTTN L Business Bundle includes the following components:

- NBN Broadband using the Fibre to the Node network
- Digital Voice Service
 - o Unlimited Local Calls - Excl. 13/1300 Calls
 - o Unlimited Standard National Calls to Landlines

The service is a pre-paid service and bills are not issued. A minimum \$20 prepayment is required at registration. As you use the service for calls outside the included value, the prepayment will be automatically topped up when the prepayment falls to a specified dollar amount.

Availability

The NBN FTTN L Business Bundle is available at selected coverage areas and subject to infrastructure availability at customer's premises. To check for availability, please use the address checker at www.tpg.com.au/nbn-business-fttn/coverage

Bundling Arrangements

Once an NBN FTTN Business Bundle is purchased:

- Change of plan option is restricted to TPG NBN FTTN Business Bundle plans only and you cannot move back to a TPG ADSL2+/ADSL service
- You cannot separately cancel either component (NBN Broadband or Digital voice). Cancellation will cease both services

NBN Speeds

Typical Business Hours Download Speed is measured between 9am and 5pm. The actual speeds for the service may be slower and vary due to many factors including type/source of content being downloaded, hardware and software configuration, the number of users and performance of interconnecting infrastructure not operated by TPG. Devices connected by Wi-Fi may experience slower speeds than those connected by Ethernet cable. For FTTN customers, we will inform you of your maximum line sync

speed once available. If you are on a higher speed NBN plan, you have the option to downgrade to a lower speed plan without any penalties.

Equipment Required

If you do not already have the required NBN infrastructure installed at your premises, you or an authorised person over 18 years of age will be required to be at the premises on the day of installation for a technician visit. If we find that you will require a technician visit to perform the installation, we will advise you of the date and time after registration.

You need an NBN compatible modem to connect your devices to TPG NBN FTTN Broadband service. A Wi-Fi modem router is included in the NBN FTTN L Business Bundle.

Minimum Term

The NBN FTTN L Business Bundle plans are supplied on either a no lock-in contract (customers are permitted to terminate the service by giving 30 days notice) or 18 month contract term (early termination fees apply). See Minimum Total Cost applicable to each plan in the Information about Pricing section.

Inclusions & Exclusions

Digital Voice Included Calls: The NBN FTTN L Business Bundle allows you to make unlimited Local Calls and unlimited Standard National Calls to Landlines, excluding 13/1300 Calls. Calls to 19/1900 numbers are not supported. Charges for calls made that are not included in the bundle (e.g. calls to 13/1300, AU Mobile numbers and Directory Services) will be charged at [listed TPG rates](#) by deducting usage charges from your Digital Voice Prepayment Outside Included Value.

CSG Waiver: The standard Monthly Charge and Setup pricing stated in the Information about Pricing section are based on new customers agreeing to waive the Customer Service Guarantee (CSG).
