See Call Rates and Other Usages Rates below for a pricing summary of excluded key usage types. For full rates and a complete understanding of Inclusions & Exclusions, visit the website [www.tpg.com.au/mobile/callrates](http://www.tpg.com.au/mobile/callrates).

### Coverage

Customers can only obtain 4G speeds when they use a 4G-ready phone (LTE 1800/850 MHz) in 4G coverage areas as per the detailed map listed at [www.tpg.com.au/mobile/coverage](http://www.tpg.com.au/mobile/coverage). When customers are not within a 4G coverage area or their mobile handset is not 4G compatible, the mobile service will automatically switch over to 3G and speeds will be much less than that of 4G. When inside 4G coverage areas actual speeds vary due to factors such as location, distance from the base station, local terrain, user numbers, hardware & software configuration and download source/upload destination.

## Other Information

### Usage Information

You can monitor your TPG Mobile usage by logging into Your Account online at [www.tpg.com.au/account](http://www.tpg.com.au/account).

### International Roaming

While roaming, calls, SMS, MMS and data are charged at higher rates than they are used in Australia.

Charges for using International Roaming are not part of your plan's Monthly Included Value. We highly recommend you disable Mobile Data (GPRS) before going overseas to ensure that you do not incur unexpected and high data usage fees whilst roaming.

Please be aware there is often a lag of up to 21 days before the roaming usage is shown in "Your Account" due to the delay in receiving your roaming usage records from overseas network carriers.
