Early Termination Fee (6-month contract)	\$99.95			
Early Termination Fee (no lock-in contract)	Not applicable			

Information About The Service

Service Description

Fibre to the Building (FTTB) is a broadband internet service which uses Vision Network's Fibre to the Building Network to deliver internet connectivity to the Network Boundary Point at your premises. TPG FTTB plans includes the following components:

- FTTB Broadband
- Voice Service (no included calls)

The service is a pre-paid service and bills are not issued. An additional prepayment is required if you wish to make any calls that are not included as part of your plan or Call Pack (if applicable). Payment options are Direct Debit or Credit Card.

Prepayment

A minimum \$20 prepayment ('Prepayment') is required at registration and will be used for calls outside of the included value for your service or Voice Add-on (if applicable).

The Prepayment amount will be automatically topped up (debited from your nominated bank account or credit card) when it falls below \$10. By acquiring and continuing to use the service, you agree on the automatic top up of your Prepayment (as required). Prepayment is non-refundable and will be forfeited if not used when you cancel the service.

Minimum Term

FTTB Bundle plans are supplied on either a no lock-in contract (customers are permitted to terminate the service by giving 30 days' notice) or 6-month contract term (early termination fees apply). See Minimum Total Cost applicable in the table above.

Availability

Only available in selected buildings. To check for availability, please use the [address checker](#).

Bundling Arrangements

Once an FTTB Bundle is purchased, you cannot separately cancel an individual component of this NBN Bundle (NBN Broadband or Voice Service). Cancellation will cease both services.

FTTB Speeds

Typical evening download speed is measured between 7pm and 11pm. Typical evening upload speed is estimated by reference to the maximum upload speed for the plan. Actual throughput speeds may be slower and could vary due to various factors including interference, customer cabling and equipment, download source, and quality and distance of in-building copper.

[#]Estimated Typical evening download speed is measured between 7pm and 11pm. As this is a new plan, the speed stated here is currently based on an estimate. TPG will revise the typical evening download speed once it has collected enough data on the speed performance for these plans.

Equipment Required

You need an FTTB compatible modem to connect your devices to TPG FTTB Broadband service. A compatible 4 Port Wi-Fi Modem Router is included in FTTB Bundle plans. \$10 Delivery fee applies, as outlined in the Pricing table above. You will need to supply your own standard compatible phone handset to use your included voice service.

Inclusions & Exclusions

Non-commercial purposes: The service is for residential consumers and used for personal or domestic purposes only.

Voice Service Calls: Customers on the NBN SL Bundle may make calls (if applicable) at [listed TPG rates](#) on a 'pay as you go' basis and are deducted from your prepaid balance. Customers may choose to add Call Pack (see below) which includes certain calls. Calls that are not included in your Call Pack (e.g. calls to 13/1300 numbers and Directory Services) will be charged at [listed TPG rates](#) on a 'pay as you go' basis and deducted from your prepaid balance. [Standard International Call Rates](#) apply for calls to satellite phones and international calls that are not included in your Call Pack. Some calls are not supported, such as calls to 19/1900. For more information, see [here](#).

CSG Waiver: The standard Monthly Charge and Setup pricing stated in the table above are based on new customers agreeing to waive the Customer Service Guarantee (CSG).
